Article no.	Description
Z100.959	USB-Bluetooth service-converter V5.0 1-assy

The listed USB-Bluetooth service converters are not manufactured by AUMA.

The Bluetooth trademark is used with reference to the trademark owner of the product.

Installation

The USB Bluetooth service converter enables wireless communication and data transmission between a PC (via the AUMA CDT software) and the actuator controls.

1. Install AUMA CDT software on the computer.

2. Connect the USB-Bluetooth service converter to the USB port of the computer.

3. Installation of the suitable driver for the USB-Bluetooth service converter.

4. Establish connection to the actuator controls via AUMA CDT software.
