

PROFOX

### **FOX-EYE**

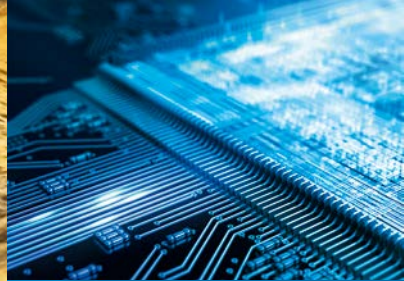

Multi-purpose indication light and Bluetooth interface.

### **App navigation**

Comfortable actuator commissioning and setting via smartphone.

### **Compact**

Excellent performance with highest interface flexibility and manageable dimensions.

### **IIoT ready**

Cloud-based recording and assessment of diagnostic data and more.

### **Precision**

Variable speed for precise positioning and sympathetic valve operation.

### **One for all types**

One solution for automation of gate, butterfly, ball, plug and globe valves.

# PROFOX

A close-up photograph of a PROFOX valve actuator. The device is metallic and features a central cylindrical component with a multi-colored light (green, red, and white) inside. To the right of this cylinder is a circular blue lens. The background is a warm, golden glow. The word 'PROFOX' is printed in large, bold, gold letters at the bottom of the image.
